

STEM Community Outreach Symposium at Rutgers

10:00 AM - 2:30PM, November 10th, 2017
Life Sciences Building atrium on Busch Campus

STEMcos(R) is a free symposium where Rutgers STEM meets the regional scientific community. This multidisciplinary event unifies undergraduate and graduate students, regional pharmaceutical and biotech companies, and high school and community college students to create meaningful connections and facilitate networking, recruitment, and knowledge transfer. Keynote speaker, Rick Ludescher, Ph.D., will discuss "Antarctic Edge 70° South", a documentary on climate change and our human responsibility on a global scale.

Itinerary

- 10:00 - 10:15 Welcome and Opening Statements
- 10:15 - 11:30 Poster Session
- 11:30 - 12:30 Keynote Speaker Seminar by Richard Ludescher
